

## CEGELEC FIRE SOLUTIONS

# Automatic fire extinguishing systems

Can your company not guarantee permanent presence of personnel? Then fire detection is not sufficient for you; you would benefit from an automatic fire extinguishing system. This limits damage to equipment or processes to a minimum. This system protects human lives, structures and processes. Depending on the application, Cegelec Fire Solutions offers various gas fire extinguishing systems, water-based and pre-engineered systems.

Automatic fire extinguishing systems based on:

- CO<sub>2</sub>
- Inert gases
- Novec 1230
- Powder
- Water mist
- Potassium carbonate (kitchen fire extinguishing system)

As a BOSEC and FISQ certified company, Cegelec Fire Solutions has years of expertise and supports projects from the study phase to commissioning. You can call on our high-quality after-sale service after installation too. Fast service with high flexibility is always guaranteed.

EXTINGUISHING

### IN SHORT

- CO<sub>2</sub>
- Inert gases
- Chemical gases
- Water mist
- Powder
- Kitchen fire extinguishing systems
